Carbon Reduction Initiatives

Our environmental and energy management systems (cascaded through all business by group via annual refresher training and safety updates) includes a set of processes and procedures to ensure that we are continuously improving and minimising the environmental impact of our operations.

Carbon Reduction Plan

Testament to these measures include

- ISO 14001 certification
- ISO 50001 certification
- PAS 2060 certification
- Waste carriers licenses within all of our businesses
- Waste policy
- Promotion of carbon alternatives – rollout of employee EV scheme, EV chargers installed at a number of our offices, ongoing commercial EV van scheme
- Promotion of employee learning and investment into behaviour change

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).
